OUR SERVICES

SOLAR SERVICES

Equipped with the expertise and the resources, SSE deals with every type of solar project, anywhere in India.

EPC SOLAR PROJECTS

We are India's leading integrated solar player, excelling across the solar value chain right from the solar products to executing rooftop and utility-scale solar projects.

SOLAR ROOFTOP

We are experts in complete solar rooftop solutions for Industries, Societies, Govt. offices and other public institutions.

SOLAR STREET LIGHTS

Solar street lights are the best, pollution-free and cost-effective solution in both the urban and rural areas.

PROJECT DEVELOPMENT

However many innovations enter the market: an abundance of ideas perish on the drawing board. Project development aims at turning promising innovation ideas into feasible project concepts. Our service facilitates project development, but also adds creativity and provides direction in all development stages.

EPC/REALISATION

Through our EPC management services, we provide clients with the complete scope of work including accurate project deliverables and data-driven output projections with quick turnaround times. Our team members employ innovative ideas to creatively solve operational issues and prevent undesired delays. At SSE, we focus on completing EPC projects in a feasible manner with the technical expertise of our team. In addition, our knowledge of various environmental and regulatory guidelines enable us to ensure mitigation of risks that can cause project delays.

OPERATIONS & MAINTENANCE

SSE helps in improving equipment, plant reliability and availability to its vast experience in plant maintenance, inventory optimization, brownfield and refurbishment. Weir optimizes total cost of ownership, using in-house life cycle management strategies and OEM technology.

EHV/HV POWER SYSTEM

SSE offers innovative models for O&M, Erection, Testing and commissioning of substation and Line equipments as per customer requirements.

CUSTOMER FOCUS APPROACH

Customer satisfaction & requirements forms the sum & substance of our experience. We have been serving the unique needs of our customers base for over three years and have earned the reputation of trusted partners by leading organizations. Excellent great work with clients to provide maintenance & operational assistance at all times has been our foremost priority.

HEALTH, SAFETY & ENVIRONMENT POLICY

We consider Health, Safety, and Environment (HSE) in every decision we take and in every activity we perform. We are committed to providing a safe and healthy working environment for those who work for and on behalf of SSE and will strive to reduce our environmental impact.
